Our job is making it easier for snow removal fleets and contractors to do your jobs.

Innovation after innovation, SnowWolf sets the pace for the snow removal industry with pusher, plow and blower attachments that clear better, make you more efficient and boost your profitability.

Ready to push *your* lead? Get a SnowWolf.

# QuattroPLOW

For: 6,000-14,000lb. Machinery

## 4X THE PLOW for your Skid Steer

The QuattroPLOW is the most advanced plow in snow removal.

This innovative equipment combines and improves upon the ingenuity of two prior SnowWolf innovations, the FastTach® and WolfWings™.

The results are greater flexibility, efficiency and effectiveness in four distinct functions, all without any extra electric harnesses or controllers in your machine. Easily shift from angle plowing to straight plowing to high-capacity pushing to backdragging in just seconds without ever leaving your machine or even pushing a button. A fifth function, wide-angle plowing, extends your plow by 23 inches on each end. All it takes is less than a minute to reposition the wing cylinders on each side of the plow. Revolutionize the way you move snow – and your business – in the right directions. Contact us about the QuattroPLOW.

# QuattroPlowHD

For: 14,000-30,000lb. Machinery

## 4X THE PLOW Just Got Even Bigger

The QuattroPlowHD is a four-in-one plow that combines the best of our AlphaPlow™, FastTach® and WolfWings™. Easily shift from angle plowing to straight plowing to high-capacity pushing to backdragging in just seconds without ever leaving your machine or even pushing a button. A fifth function, wide-angle plowing, extends your plow by 28 inches on each end. All it takes is less than a minute to reposition the wing cylinders on each side of the plow. QuattroPlow wings operate automatically using only two hoses and couplers, just like an angle plow.

Revolutionize the way you move snow – and your business – in the right directions. Contact us about the QuattroPlowHD.
